Andrew Preston

Franklin, TN

(615) 973-2435 | abp4h@mtmail.mtsu.edu | aprest10.github.io/portfolio/

EDUCATION

Master of Science in Computer ScienceMiddle Tennessee State UniversityExpected May 2023Master of Science in Exercise ScienceMiddle Tennessee State UniversityMay 2019Bachelor of Science in Exercise ScienceMiddle Tennessee State UniversityMay 2018

SKILLS

Languages: C, C++, JavaScript, Python

Frameworks & Libraries: Matplotlib, Pandas, NumPy, SymPy, React.js, Node.js, SCSS

Tools: CLion, WebStorm, Unix, Git, Github, Jupyter Notebook

PROJECTS

Chatroom | C

- · Built entirely in C
- Designed using sockets and threads for concurrency
- The server can handle multiple connects simultaneously

Geoguessr Neural Network | Python

- Coordinated with 4 teammates to develop and build the project
- Responsible for developing the network architecture
- · Worked with a teammate to train the model
- Co-developed the code to properly output the model's best guess
- Developed most of the demo file meant to be a step-by-step guide for users

Sorting Visualizer | JavaScript

- Implemented multiple sorting algorithms
 - Bubble sort, Merge sort, Insertion sort, Heap sort, Quick sort, Selection sort
- Designed to showcase how algorithms differ in function and complexity
- Developed with the goal of being mobile-friendly

PathFinder Visualizer | React

- · Implemented Dijkstra's algorithms in a visual format
- Based on a class project to implement Dijkstra in C++

Portfolio Website | Personal Project

- Developed a website to display projects
- · Learned to use GSAP ScrollTrigger and Lottie animations to enhance the website
- Ensured responsiveness of the site by using mobile-first design
- Enhanced the site further using media queries to enable automatic light/dark mode functionality based on user settings

ACTIVITIES & INTERESTS

Certifications: CompTIA Security+, CompTIA A+

Honors/Clubs: Eagle Scout, Order of the Arrow, Cum Laude, Association for Computing Machinery

Interests: In my free time I enjoy hiking, swimming, and baking breads for family and friends.
